Acupuncture is the insertion of a thin needle into the surface of the body. A patient may feel a slight pricking sensation and/or electrical impulse near the needle. Patients usually report little or no pain during and acupuncture treatment. On occasion, there may be slight bruising where a needle was inserted. The duration of a treatment is usually 30 minutes to one hour. Although no outcome of treatment can be guaranteed, it is understood that every patient is unique and that each treatment is designed specifically for the conditions of the patient. I understand that I have the right to consent to, or refuse, treatment.

We accept payment via cash, check, or credit card. Payment is due at the time that services are provided. Failure to make payment at the time of service will result in a requirement to prepay all future visits with cash only.

Initial client visits are priced at \$195. Follow up naturopathic consultations are priced at \$90 for up to 45 minutes. Acupuncture is \$90 per session.
